

# Image Analysis: Notice & Wonder

**Instructions:** Look at the image and write down 2-3 things you notice (key details, main ideas, themes) and then write down 2-3 things you wonder (questions you have because of the image, things you are curious about when you look at the image.)

**What do you notice?**

**What do you wonder?**

# Read & Take Notes

**Instructions:** Read the passage below. Take notes in the space provided.

Once upon a time, there was a famous Japanese manga series called Doraemon. It was written and illustrated by Fujiko F. Fujio and was first published in 1969. The story is about a robotic cat named Doraemon who travels back in time to help a boy named Nobita Nobi. Doraemon became a big hit and even won awards. It was loved by people all over Asia. The manga series was so popular that it sold over 250 million copies worldwide. Doraemon became a cultural icon in Japan.

Robots are not just in manga and movies, they are also being used in real life, especially in healthcare. Robots can help with tasks like diagnosing diseases and providing customer service. They can even work alongside humans to make them more productive and creative. However, some people worry that robots will take over human jobs. But experts say that robots can actually help humans and make their lives better. They can do tasks that are repetitive or dangerous, while humans can focus on more important things. So, instead of replacing humans, robots can work together with them.

In the movie Wall-E, robots and humans have different roles. The humans in the movie are shown to be mindless consumers who rely on robots for everything. They don't care about the Earth and don't use their minds for anything individual. On the other hand, the robots in the movie have personalities and do things because they want to. Wall-E, the main robot character, collects things and even has a pet cockroach. The movie shows that robots can have emotions and be more than just machines. It teaches us that robots and humans can have different traits and work together.

In conclusion, robots can be both good and bad. They can entertain us in manga and movies like Doraemon. They can also help us in real life, especially in healthcare. Robots can work alongside humans and make their lives better. However, we should also be careful not to rely too much on robots and lose our individuality like the humans in Wall-E. Robots and humans can have different traits, but they can also work together and complement each other. So, let's embrace the good side of robots and use them to make our lives better.

# The 5 W's

**Instructions:** After reading, complete this 5's chart using all of the vocabulary words. Be sure to use complete sentences.

## Key Vocabulary

manga	robotic	diagnosing	individuality	complement
a Japanese comic book or graphic novel.	related to or characteristic of a robot.	identifying or determining the nature and cause of a problem or disease.	the qualities or characteristics that distinguish one person from others.	to enhance or complete something by providing what is lacking or needed.

<b>Who?</b> Who was involved?	
<b>Where?</b> Where did it happen?	
<b>When?</b> When did it happen?	
<b>What?</b> What happened?	
<b>Why?</b> Why did it happen?	

# Answer and Explain

**Instructions:** For each question, answer the question and then explain why you picked the answer you did using specific evidence from the text.

**Question:**

1. Who is the author and illustrator of the famous Japanese manga series Doraemon?

**Pick the Answer**

- A) Fujiko F. Fujio
- B) Nobita Nobi
- C) Doraemon
- D) Wall-E

**Explain: Why did you pick that answer?**

**Question:**

2. What is the main character in Doraemon?

**Pick the Answer**

- A) A robotic cat named Doraemon
- B) A boy named Nobita Nobi
- C) A pet cockroach
- D) A famous Japanese manga series

**Explain: Why did you pick that answer?**

**Question:**

3. According to the text, how can robots help humans in real life?

**Pick the Answer**

- A) By taking over human jobs
- B) By making humans more productive and creative
- C) By replacing humans completely
- D) By relying on humans for everything

**Explain: Why did you pick that answer?**

# Short Answer Questions

**Question**

1. Who is the author and illustrator of the manga series Doraemon?

**Question**

2. When was the manga series Doraemon first published?

**Question**

3. What is the main message conveyed by the movie Wall-E about robots and humans?

# Consider and respond

**Instructions:** Respond to the following question using the reading and your own knowledge and experiences. Be as thorough as possible.

**1. How do you think robots can be helpful in your everyday life?**

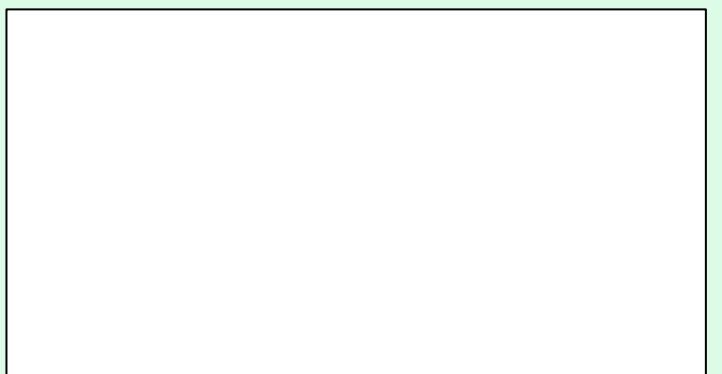

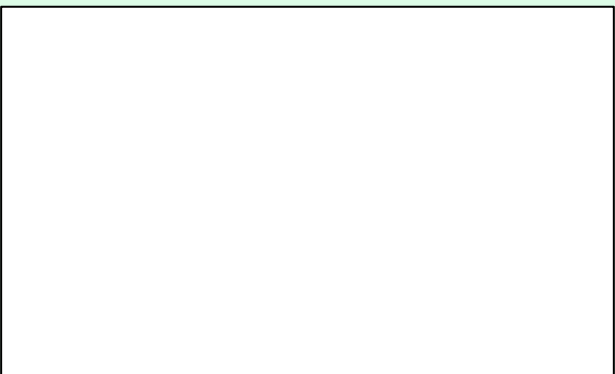

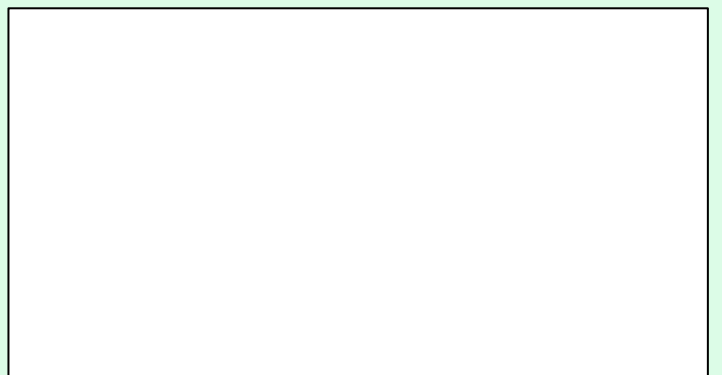

**Write Your Response Here.** Be sure to use what you learned in the reading and your own knowledge and experiences to answer the question thoroughly.

# Consider and respond

**Instructions:** Respond to the following question using the reading and your own knowledge and experiences. Be as thorough as possible.

2. Do you think it is possible for robots to have emotions like humans?  
Why or why not?

**Write Your Response Here.** Be sure to use what you learned in the reading and your own knowledge and experiences to answer the question thoroughly.

# Consider and respond

**Instructions:** Respond to the following question using the reading and your own knowledge and experiences. Be as thorough as possible.

**3. What traits do you think are important for humans and robots to work together effectively?**

**Write Your Response Here.** Be sure to use what you learned in the reading and your own knowledge and experiences to answer the question thoroughly.
